

SUCCESS STORIES PROGRAM

Success Stories facilitates intersectional feminist workshops that help people at high risk of committing patriarchal violence to overcome harmful gender behaviors and be their highest selves.

Our program includes a 12-week workshop, with all materials provided, and a graduation ceremony. We understand that some facilities have a need for a modified curriculum and we can work to accommodate those requests. One-day patriarchy workshops are also available. **All programming is available in English and Spanish. Pricing available upon request.**

Create a Transformed Culture Where Toxic Gender Behaviors Are No Longer the Norm

We encourage participating in an ongoing workshop series to reach as many people as possible. Ongoing workshops help to create an environment where participants can support each other in overcoming harmful gender behaviors and build new identities based on honoring their highest commitments and community goals.

***Success Stories offers programming on a sliding scale basis. If your program budget cannot cover the cost, we will work with you to reach our common goal.**

What Participants Say About Our Program

"The connection and camaraderie I felt from my group was something I hadn't felt since attending a support group in prison. I didn't fully realize how much I needed the support Success Stories offered. The power of vulnerability that was shared across my group assisted me in healing. Life moves really fast out here and Success Stories kept me grounded."

Peter, participant with Underground GRIT

"On a very personal level, Success Stories healed some wounds around my relationships with men. For a long time, I was embarrassed and ashamed to show up with a group of men having different values. Now, I have three sons. I hope to share with them that they can treat themselves well, be soft without being weak, treat others with kindness and integrity."

Tyler, participant with Rise Up Kingston and the Newburgh LGBTQ+ Center

We look forward to working with you to transform behavior and free people.
